

# Accounting Services Bureau, Inc. Announces Version 2.1

**An easy to use utility that gives you 6 features that QuickBooks® doesn't offer  
when exporting trial balances to Excel. All this for \$100!**

1. Exports P&L class codes
2. Exports date ranges or "Net Change" in addition to "As of" dates
3. Exports account #s in their own column instead of embedded with the description/name
4. Exports the balances in one column instead of debit and credit columns
5. Replacement table for class codes
6. Appends class code in front of or after the account number
